- Learning
- Football
- Walk in the fresh air

PROFILE

My name is Danil. I am a goal-oriented, energetic and constantly evolving aspiring developer looking for a permanent position. I love to learn new things. So I read books, look at tutorials. I follow the news on YouTube channels, read articles on Habr. I like to understand things related to work, read documentation and specifications. I love clean, thoughtful and convenient code.

EDUCATION

2017 – Higher education
In 2017 I entered the KNURE on a specialty "Computer Science". In 2021 I will receive a bachelor's degree.

2018 – Studying Front-end
The beginning of an independent study of the specifics of website development and the creation of the first project.

EXPERIENCE AND PRACTICE

2019 – Freelance
There were 9 customers. Finished more than 35 projects. I still work with some of them. Here is a link to my profile.
